I've had his hiking books before and enjoyed them, but this one kicks it up a notch with all the added material. There are some brand new parks to Milwaukee that have been included so it's the first hiking book in print to have those.0 of 0 people found the following

review helpful. Training for the big hikeBy David M. ColorezI'm training to hike the ice age trail this year. I plan to be an thru hiker. This book gave me some good information in preparation for the hike!
