Kent Dannen : Best Hikes Rocky Mountain National Park: A Guide to the Park's Greatest Hiking Adventures (Regional Hiking Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Best Hikes Rocky Mountain National Park: A Guide to the Park's Greatest Hiking Adventures (Regional Hiking Series):

4 of 4 people found the following review helpful. The book outlines (in wonderful detail) almost the entire park. In addition to providing elevation, elevation gain, GPS coordinates etc, the book gives guidance on what season is best for each of the hikes, what kinds of sights you will experience, and includes pictures and maps as well.

2 of 2 people found the following review helpful. I am very pleased with this guide book. It's well presented for analyzing and planning my upcoming hike routes. The parks should publish something like this so they can help raise funds for the National Parks. I was surprised the parks sites lack the details needed for really planning and understanding the trails. I also bought a detailed map.
