By Biff44I bought this because our rescue dog looks EXACTLY like the one on the cover. So now we know what breed she is. The book turned out to be very good, excellent tips, and good run down of where you can and can not hike with the dog. With the government encroaching on every aspect of your life/freedom, you need books like this to tell you where you can still do simple stuff, like walk in the woods with your dog, without breakin da law!

By Ben LittauerThe good: discovered Mt. Major hike over Alton Bay. Very nice! The bad: the description of the Boulder Trail at Mt. Major had it as the easier path, not "jumping boulder to boulder". Well, that's just not true. The path we took up, not Boulder, was pretty easy, Boulder trail coming down was all boulder to boulder at the top. Makes it hard to trust descriptions of other hikes.
