Ford I love car camping and if you do, too, I bet you've thought at least once or twice about how nice it would be to enjoy all the pleasures of outdoor vacationing BUT with a real bed and some solid shelter for when the weather turns sour. If so, my friends, read on. Better yet, just get this book. It is a complete, well presented introduction to camper cabins in Minnesota. The author, Tom Watson, has clearly taken the trouble to visit all such cabin options in the state to help you narrow down which ones you'd like to try. Want to be far from others? Want activity options for families? Want to know which ones are close to good fishing lakes or historic sites? Want to make sure it has electricity? Need enough cabins for a group

gathering? All the details are in this concise, well written book which includes a useful map at the beginning that lays out all the locations before delving into the details. And yes, all the details you want are there, including photos of cabins (inside and out) and contact info for reserving your first camper cabin. Watson even lists the few available yurts available in Minnesota. Oh, our neighboring states will be jealous to not have a similar useful guide for rustic cabin camping. The only solution: cross the border with this book in your pack and pick your favorite MN park and favorite cabin there to try it out. I've narrowed my first choice down to three and soon will reserve the winner to be there enjoying the great outdoors later this summer. It's bound to be a success with a resource like this for guidance. Here's to the pleasures of a campfire meal, the stars above AND a cozy bed for the night!

Enjoy nature in comfort! Cabin camping is more comfortable than tent camping, and Minnesota is the perfect place to do it. Outdoors writer Tom Watson shares what he's learned while personally visiting and inspecting 98 camper cabins throughout the state. Get firsthand advice about each site, including cabin ratings, features, amenities, park highlights, and more. Most camper cabins are open to the public and situated in wild places like Jay Cooke and Forestville/Mystery Cave state parks. Plus, there's a special section on yurts, a unique camping option. With this great guide, you'll be out in nature but with a solid roof overhead and maybe even a porch to view your own slice of paradise. It's easy to hike, paddle, camp, and enjoy Minnesota's pristine lakes, deep forests, and wild rivers right outside your camper cabin's front door.
