**Roy Parvin : Beyond the Golden Gate: California's North Coast (Companion Press Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Beyond the Golden Gate: California's North Coast (Companion Press Series):

1 of 1 people found the following review helpful. Gorgeous!By BCI bought this as a "welcome to Northern California" gift for a friend, and was extremely tempted to keep it for myself instead, as the store only had one copy. The photos were all so beautiful! But I caved in and gave it to her, so now I'm on the waiting list for my own copy. I'm such a good friend;-)0 of 0 people found the following review helpful. north coastBy breannathis is a brilliant book on the north coast of california proving that it is just as beautiful as oregon's coast3 of 3 people found the following review helpful. Brought me back home...By Marie E. KujengaI grew up in Fort Bragg (along the Mendocino Coast) and got my Bachelor's degree at Humboldt State University (just north of Eureka), and I now live in Lansing, Michigan. I love Michigan, but I miss the majestic, rugged scenery of the North Coast of California. This book brought me back to the sights of my memory with such excellent quality photographs, I am tempted to buy it for all of my friends who've moved away from California. Thank you to the authors for choosing the places I love (Fern Canyon, Trinidad Head, Russian Gulch) and for including some of the creatures not found in the Midwest (salamanders, banana slugs!)

Beyond San Francisco's legendary bay entrance with the Golden Gate bridge, journey northward through California's spectacular North Coast. This strikingly varied landscape is three hundred miles of rugged coastline, two million acres of forests and parklands, vineyards, country inns, historic forts, small communities and fascinating towns.

About the Author Larry Ulrich and his wife, Donna escaped from the bustling San Francisco bay area as it was turning into Silicon Valley and discovered California's quiet, beautiful North Coast at just the right time. Settling in the coastal town of Trinidad in 1971, they have pursued their successful careers as professional freelance photographers from that locale ever since. Roy Parvin is the author of the short story collection *The Loneliest Road in America* and, more recently, *In the Snow Forest*, a book of novellas. He lives in the woods of Northern California with his wife, Janet, and two Border collies.
