Desperate to be free of a terrifying food addiction and driven by a terrible longing to find God, whomever and whatever that meant, Virginia began a ten-year journey that covered more than 10,000 miles by bicycle and countless inner miles of self-discovery and transformation. Her search takes her from a well-ordered, happy married life into divorce, chaos, confusion and despair and ultimately to the unexpected and profound answer to her quest. This story follows a modern-day seeker as she bicycles her way alone on back roads and in long distance races all the way home, where she finds herself as she finds the God she is seeking.
