Shawn E. Richardson : Biking Wisconsin's Rail-Trails (Biking Rail-Trails) before purchasing it in order to gage whether or not it would be worth my time, and all praised Biking Wisconsin's Rail-Trails (Biking Rail-Trails):

0 of 0 people found the following review helpful. need the updated versionBy TravelingNancyI accidentally ordered a very old version. I need an updated one. But this was excellent information in its time.12 of 12 people found the following review helpful. An excellent guide book to Wisconsin's bike trails.By A CustomerAn "indispensable book for bikers, hikers, walkers, joggers and families who want to enjoy Wisconsin's trails." Shawn E. Richardson's book

Biking Wisconsin's Rail-Trails follows an identical format to Shawn E. Richardson's first book Biking Ohio's Rail-Trails. This colorful paperback book includes detailed maps, photos, and a description to each trail. Trail lengths range from 1 mile to 96 miles and include information about trail surface (smooth crushed limestone, asphalt), trail use (biking, roller blading, horses, wheelchair, hiking), parking, and points of interest. Shawn E. Richardson provides information about the Wisconsin Department of Natural Resources and their involvement with Wisconsin's rail-trails. If you live in Wisconsin, or plan to visit Wisconsin, this book is a must for any cyclist!

Wisconsin! The state of rolling hillsides, dairy farms and picturesque landscapes. And there's no better way to see it than from a bicycle on a safe, paved rail-trail. Biking Wisconsin's Rail-Trails is a complete guide to biking the state's rail-trails and bike trails.

About the Author Shawn Richardson has pursued recreational biking for the last 22 years. Biking is a pastime he loves and wants to promote. In addition to riding Wisconsin and Ohio's trails, he has biked extensively in other states. He is a member of the Rail-to-Trails Conservancy and is committed to the concept of converting old railroad beds to biking trails. His meticulous nature and passion for biking make him a perfect resource for sharing trail information with others.
