Paula Ford : Birder's Guide to Pennsylvania (Birder's Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Birder's Guide to Pennsylvania (Birder's Guides):

1 of 1 people found the following review helpful. Birding Pennsylvania By Brian H. Nordstrom Probably invaluable to birders like me who do not live in the Pennsylvania area and need really good advice about where to go birding in Pennsylvania.

This book takes the reader to almost 200 parks, refuges, and hot spots for migratory and resident birds throughout Pennsylvania. Details on 7 geographical regions including 34 maps make this the most comprehensive, statewide guide available to Pennsylvania birding sites.
