Wish it had color pictures.By Diana MegginsonBirding Corpus Christi and the Coastal Bend: I really love this book, it has given me many birding sites right near to home, many I already knew about, but many I did not. The only thing I did not like about this book is that I was hoping for color pictures of the birds so that I could keep track of the birds I see and learn how to identify each bird. I'm sure there is a book out there that does this. I do like this book very much, the lack of color pictures is the only complaint I could have about it.

Detailed descriptions, maps, and photos lead the bird watcher to the more than 75 sites within a two-hour drive from Corpus Christi, Texas.
