The CD of the birds' songs is a nice addition too!0 of 0 people found the following review helpful. my in-laws love using this with their bird feedersBy Beverly MurphyBought with the field guide... my in-laws love using this with their bird feeders.2 of 2 people found the following review helpful. Recognized the first bird call i listened to!By OwlfrogThe sounds are very clear! The first bird call I listened to was the Barred Owl. The call I heard on the disc was the same call I have heard in the woods near my home many times! I plan to use the CD set to identify more bird calls that I hear every day.

Enjoy the total bird watching experience. Learn to easily identify the bird sounds in your backyard. With this CD set, you can listen to the amazing songs of 140 common birds of Alabama. Use the CDs alone, or pair them with the Birds of Alabama Field Guide. The recordings are in the same order as the field guide, and the included 36-page booklet has an index that's cross-referenced to the book.
