Five StarsBy CustomerExactly what we were looking for0 of 0 people found the following review helpful. beautifulBy cathy kauffman-nearhoofBeautiful, informative, spellbinding photography.Live it! Great coffee table addition.2 of 2 people found the following review helpful. Gorgeous photosBy Leslie SciandraAmazing photography, makes it fun to look at and try to identify all the species of birds we see around the Isle of Palms and Mount Pleasant.

The coast of South Carolina is a spectacular place to observe our winged friends. Many species are to be found there, both resident and those that are passing through on their annual migrations. \nThis new book, by noted bird photographer Roger Everett, captures the birds found along South Carolina's shore in beautiful, full color images. Organized by habitats, the yard, garden, woodlands, beaches, and nature reserves, the species range from common House Wrens and Chickadees to the rarer Seaside Sparrows, Caspian Terns, and Golden-Crowned Kinglets . While not a field guide, it will aid dedicated birders and casual visitors to see the aviary that surrounds them. The photographs are amplified by the authors observations and concise, informative captions. \nEnjoy hours of pleasure viewing and reading about the birds in this special area.

About the AuthorRoger S. Everett, from in Brewster, Massachusetts, has had his photographs featured in many wildlife magazines. This is his sixth work for Schiffer Publishing.
