Mary-Alice Pomputius : Bone Voyage: Travel With Your Pet before purchasing it in order to gage whether or not it would be worth my time, and all praised Bone Voyage: Travel With Your Pet:

6 of 6 people found the following review helpful. Great Info - Well Organized By Kate Winner I discovered this author thru her blog, Dog Jaunt, then thru Facebook. They were life-savers when I wanted to take our first puppy on his first trip! This book has all the same info plus tons more, and contains links to new info on related websites so that you'll always have access to the latest data. Now, we have a 2nd pup, still traveling. I've been very happy to have all this

good info in e-book form now. The table of contents is very detailed and makes it easy to find just what I need. And having it in my Kindle means it's always close at hand. I could not recommend this more highly. Thanks for a great resource! 1 of 1 people found the following review helpful. **SPLENDID!** By Scott Del Paine Having read many articles, publications, what have you, I must say I found this book very useful, and will refer to it often, it's very specific, down to the details, which as we know, is **IMPERATIVE** in keeping our littlest ones safe and happy when traveling, we've traveled many places including abroad but I wish I had purchased this before that trip, Thanks so much! 6 of 6 people found the following review helpful. **Essential for every Jet Set pet** By Jetset Jenna I've long been a fan of DogJaunt.com, Mary-Alice Pomputius' pet travel website. Bone Voyage expands upon the information found on the website and presents it in a well organized package. There are helpful links to important documents, resources and publications. Bone Voyage is an essential read If you've ever contemplated traveling with your pet.

Mary-Alice Pomputius writes Dog Jaunt, a blog focused on traveling with a pet dog. She and Chloe, her Cavalier King Charles Spaniel, have crossed the U.S. repeatedly, in all directions, and they've crossed its borders and the Atlantic too. Bone Voyage distills what they've learned, and makes pet travel easy and accessible. Vacationing with your pet may give your wallet a break, and traveling with your pet is fun. You'll see more of your destination, you'll make friends with people who want to meet your pet, and -- best of all -- you'll have your furry buddy with you for company. Bone Voyage is the ultimate guide for travelers who want to bring their pet along on their adventures. It's packed with information, advice, and first-hand accounts designed to make your journey a smooth one. You'll find tips for: Preparing your pet to travel comfortably and safely, whether it's in a car or on a plane, train, or boat Choosing a pet carrier the right size for your pet and for the space available on your plane Finding destinations and activities you'll love sharing with your pet Getting the right paperwork and satisfying the current requirements for taking your pet to your chosen destination Selecting the best pet travel gear, and packing it efficiently Making your way through an airport and onto a plane with a pet (including handling bathroom breaks!) Gene Openshaw, co-author of Rick Steves guidebooks, says: "With this book, you'll learn about the most pet-friendly destinations -- the best cities, airlines, hotels, and restaurants. You'll know what to pack, how to keep your pet safe and happy, and all the proper travel 'petiquette.' Whether you're flying to Europe or just taking a car trip, you'll want this book."

About the Author Author and blogger Mary-Alice Pomputius helps people take the plunge and travel with their pets. She's traveled with Chloe, her 5 year-old Cavalier King Charles Spaniel, since the day they met. Dismayed by the lack of detailed information about pet travel available at the time -- particularly about flying with an in-cabin dog -- Mary-Alice began writing her blog Dog Jaunt in April 2009, and hasn't yet run out of things to talk about. She's helped by her readers, who contribute travel tips and tales of their own to the blog. She's also helped by the fact that she's been traveling all her life, and that she practiced law for 10 years -- two facts that sound unrelated, but the first means that she's comfortable with the logistics of travel, and the second means that she's a devoted researcher. Few things please Mary-Alice more than figuring out how to structure a vacation so Chloe can participate as much as possible, and Dog Jaunt's readers benefit from her obsession. It's a tremendous help, too, that Chloe is a good traveler. A goofy, appealing, sweet-tempered dog, she's a 13 lb. ambassador of good cheer and a devoted hunter of squirrels and pigeons (neither species fears her; squirrels, watching her approach, have been seen reaching unconcernedly for another nut). In September 2013, Mary-Alice published her first dog travel book, Bone Voyage: Travel With Your Pet. It's a how-to guide focusing on dog travel, primarily in and between North America and Western Europe, but with tips for owners of other kinds of pets, and travelers contemplating other destinations (including Australia and New Zealand).
