Great guide written by a Boston residentBy Lovetripper.com Romantic Travel MagazineThe best guidebook makes you feel like you've got a good friend in town, one ready to share the out-of-the-way finds and to keep you clear of the tourist traps. City Smart Boston is one of those guides. Author and Boston resident Lisa Matte offers up suggestions on her hometown that range from accommodations to dining, from shopping to cultural activities, all designed to help you make the most of your visit. We especially appreciated the accommodations section, covering properties that range from five-star to bed-and-breakfasts. Details important to romantics, from terry cloth bathrobes to on-site gourmet dining facilities, are included in the hotel writeups. Along the way, readers find a sprinkling of fascinating trivia (hey, bet you don't know which Boston hotel called John Wilkes Booth a guest just a week before he shot and killed President Lincoln!) Romantic travelers also find plenty of sizzling nightlife activity covered in this guide, including where to see the Boston Pops and the hottest places to dance the night away. A special section takes a look at Boston's best Irish pubs.0 of 0 people found the following review helpful.
