**Grant Weherley : Break the System: Escape the Rat Race, Start a Business, Travel the World** before purchasing it in order to gage whether or not it would be worth my time, and all praised Break the System: Escape the Rat Race, Start a Business, Travel the World:

access to a large amount of savings, or focused solely on blogging, which isn't my interest. Reading this book I realized I'm already way closer to my dreams than I thought. Grant helps you identify your potential business models, shows you common pitfalls to avoid, and even has a walk through for going from zero to independent, in case everything falls apart. It's not a one solution fits all book. 0 of 0 people found the following review helpful. Good place to start your journey. By dhI thought that there was a lot of great information in this book. He broke down different types of business models that could be started quickly and provided a lot of value with the resources he provided in the book. There was only one area that I would have enjoyed reading more about. I would have liked to see more on overcoming fears, specifically regarding the section about access to healthcare, and some of the things that we are used to in the U.S. for example, based on his experience, of course. Maybe in the next edition, he could have some interviews with location independent entrepreneurs on the fears they faced and how they got over them to achieve location independence. People don't normally like venturing out of their comfort zone and I think this would have been a great area for deeper discussion in the book, but it was overall a good read and informative and I will recommend to my friends. 0 of 0 people found the following review helpful. Motivational and actionable. By ReviewerFrom the personal angle, to the sound business advice, to the motivational phrases, this book truly has it all if you're just looking to enrich your life. Forget traveling the world - are you satisfied with your life, or do you find yourself constantly thirsting for more? I think that's a question that 99% of people would answer yes to. The answer lies within this book, as it's a great kick in the butt to remind you what you're capable of in life if you just see what other people have done. Is it easy? Maybe, maybe not. But did you expect it to be? If it was so easy, then everyone would be living their dream lives, and we know that's not the case. You get a serious blueprint in this book, and the rest is for you to seize your life and make it what you want. Loved this book.

Sick of the daily grind, the cubicle, the 9-5, and living average? Thirsting for more in your life? Does traveling whenever you like, working as much or as little as you want, being your own boss, injecting adventure into your life... while making more than your grind-it-out job sound appealing? Newsflash: it's within your reach Not only that - it is easier than you ever thought, and I am living proof of this. Memories of my lifestyle back home are just blurs compared to the ways I take advantage of my freedom now - riding elephants, scuba diving, traversing world-famous mountain ranges, eating delicacies until my stomach explodes, and basking in nature that made me feel like I was living in an issue of National Geographic. This book is a result of the steps I took to forge my own path to seize the life of my dreams, interwoven with the experiences of dozens of other people who have done the same thing (<http://bit.ly/MoreCoolVideos>). You will learn exactly what you need to do to get started from scratch, and I promise it's so much easier than you think! What will you learn inside? - How little it really takes to break away and start living on your own terms. - The most proven options for getting started so you can choose which path is the best fit for you. - The five most common mistakes that cause failure - and how to smash them. - EXACTLY how to start from scratch, and how you can get started tomorrow. - How to go take the step from wannapreneur to true lifestyle entrepreneur. - A step by step guide to how to grow and scale a business to make more than you earn now... while working less. I know what you are thinking... - NO this does not require that you have a degree in business (I don't know a single entrepreneur who does) - NO you don't have to have previous experience (I started as a stupid college kid!) - YES you can do it, despite whatever other excuse you might be thinking of (you have kids, debt, you live in Bulgaria, doesn't matter) Get ready to get started TOMORROW breaking out of the grind, working for yourself, building the life of your dreams, with the freedom to travel the world while you do it (if you so choose - I did).
