Lynnette Hartwig : Briefcase Travel: Packing Light for Business Trips before purchasing it in order to gage whether or not it would be worth my time, and all praised Briefcase Travel: Packing Light for Business Trips:

1 of 1 people found the following review helpful. Well done short book about how to travel REALLY lightBy CustomerThis is a realistic and surprisingly well-done short book for traveling light - very light.I've gone on one day business trips where I worried about getting stranded overnight because I was booked on the last flight out. In my business career I've spent the night a few times in airport hotels and even in airports due to cancelled flights during

inclement weather. When there's a possibility of getting stranded, I've starting bringing along a few things in a large tote bag that doubles as a briefcase - just in case. In a way it has become a challenge to figure out how to squirrel away some essentials, without actually bringing along luggage. I thought this had excellent advice. I picked up a few tricks I didn't already know about traveling really light and plan to incorporate in my next one-day trip when I need "insurance." 1 of 2 people found the following review helpful. I wish it would have been better. By GregFirst, I want to say that I respect anyone who attempts to help others by writing. Unfortunately, this book did not contain the information I hoped for. Basically, the only thing the book said was use shampoo from the hotel and wear your clothes more than once.

Ultra-light packing and travel guide, mens and womens chapters. Travel with only a briefcase or large purse on your next two or three day trip without buying anything new! Stay flexible and safe the entire trip. Everything is within reach but invisible when pulling out the computer dignity and security every step of the way. Adapt to any schedule change with total confidence and good nature. Keep all your belongings with you on small regional planes. Briefcase Travel ensures you have everything you need all day long.
