1 of 1 people found the following review helpful. This book will evoke positive emotions from any boater who enjoys relaxing time on the water and appreciates the great outdoors.By Douglas B. SchwarzBring Me a Minstrel is a story about appreciating the sights and sounds of a cruise in one of the most beautiful places in the world (the Salish Sea) and sharing it with one's life partner, his crew.The author's descriptions are magnificently colorful and his sidebars

reflect his life experiences, both of which add humor and a great flow to this wonderful depiction of relaxed solitude available when anchoring out. This is not a cruising guide but rather a colorful and humorous story about appreciating the great outdoors from the boaters' perspective, the subtle lessons about the delicate interactions between captain and crew and about boating safely. It is a book about relationships: captain with crew, man versus nature and interactions with fellow boaters. 0 of 0 people found the following review helpful. A charmer

The book is for anyone who loves a story about human nature and a lover of salt water will feel right at home. If the journey is the reward and not the destination then this book reinforces that fact. WJ0 of 0 people found the following review helpful.

Very interesting story that used words which drove me to use the dictionary which then challenged and broadened my intellect.

Bring Me A Minstrel is a small sea story told in a large way. Set in the waters of the Pacific Northwest, Robert Greene spins an enchanting yarn based on the voyage of Minstrels Song from Washingtons Olympic Peninsula to one of British Columbia's most breathtaking destinations, Princess Louisa Inlet. Part travelogue, part irreverent history, part sea lore, part drama, part imagination, part personal insight, but all lighthearted and engaging, this book charms as it equally entralls. Discover the incredible grandeur tucked away in Canadas wondrous system of fjords. Learn all you ever wanted to know about the Pacific Northwet. Delve deeply into the unpredictable natures of things that float and the natures of people who float on them. Most of all, share a ride that wont soon be forgotten.

About the Author
Robert B. Greene is a student of the human affairs. Holding a Ph.D. in Government, he has been a construction worker, a soldier, an academic, a spy (retired), an administrator, a sailor and a cattle rancher, at the very least. He is a cancer survivor. Preferring humor to the dry and dreary, his musings have appeared in aviation, bovine and syndicated publications. He and his wife share hearth and home in Montanas Rocky Mountains.
