Bringing Out Baby: Places to Take Babies and Toddlers : Seattle, the Eastside, and South Snohomish County:

Nice but not comprehensive and a little out of dateBy KatieI gave this book 4 stars because there's no other book that covers things to do in the Seattle area with a baby. That said, it doesn't cover much of the Seattle area at all. It would be much more useful if it covered all of Snohomish County, including the various farms and the great children's museum in Everett. In addition, this book is probably due for a more up-to-date version.

This book is a complete guide to keeping you and your little one entertained and stimulated on any given day. Each activity listing contains full information on fees, hours and features to assist you in choosing an outing. Also included are detailed descriptions to help you make the most of your choice, along with weekend and evening hours to accomodate working parents.
