PinzkaWell-organized information, including downtown and area maps, of major US cities, as well as demographic and traveling information. I love maps and when reading, like to locate what I'm reading about. This is a fine addition to my map collection.

This new atlas places the particular data that the business traveler needs at their fingertips. In addition to the superior mapping and mileage charts of our other popular road atlases, we include national zip and area code maps, population and household income listings, detailed city vicinity and downtown street maps, and other statistical information. The

rounded corners, handy size, and spiral binding make for ease of use.
