James Kavanagh, Waterford Press : California Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide) before purchasing it in order to gauge whether or not it would be worth my time, and all praised California Birds: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide):

0 of 0 people found the following review helpful. Very good if you're near water, but not very comprehensive
By fortherelax This worked very well for a whaling trip I went on. I took a grease pencil with me that I tied to a hole I punched in the top of the guide. This way, no matter how much water got sprayed on us, I could still underline or circle the birds I saw so that I could later enter them in bird. The problem with the guide was that it only had about half of the birds I saw in it. It wasn't very comprehensive but I guess you have to expect that with a folding guide.
0 of 0 people found the following review helpful. Handy and easy to recognize local CA birds
By Mrs.Peppa Great and easy to use. We take it hiking and keep it handy to see what birds there are in our backyard
0 of 0 people found the following review helpful. Bird is the word!
By JB This is so handy for identifying birds in our rural yard. Love it!

The Golden State is the permanent or migratory home of 644 species of birds, including the state bird: the teardrop, top-knotted California quail. This beautifully illustrated guide highlights over 140 familiar and unique species and includes an ecoregion map featuring prominent bird-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.

From the Back Cover California Birds, An Introduction to Familiar Species, is a must-have, reference guide for beginners and experts alike. Whether you're on a nature hike or in your own backyard, you'll want to take along a copy of this indispensable guide. The Pocket Naturalist(tm) series is an introduction to common plants and animals and natural phenomena. Each pocket-sized, folding guide highlights up to 150 species and most feature a map highlighting prominent sanctuaries and outstanding natural attractions. Each is laminated for durability. (3 1/2 X 8 1/4 folded, opens to 22 X 8 1/4, color illustrations, map)
About the Author Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution. With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
