**Map Link : California Gold Country** before purchasing it in order to gage whether or not it would be worth my time, and all praised California Gold Country:

1 of 1 people found the following review helpful. DisappointedBy Kathleen P. GibbonsNot what I was looking for- This map tends to focus on the northern gold country and is marginal at best for the southern region.

Artistically drawn colorful map of the California Gold Rush Country. Shaded-relief drawing depicts topography of the Sierra Nevada Mountains and historic sites are highlighted by attractive drawings. Written information on historic sites and Gold Rush personalities added. Fun and easy-to-read.
