All atlases have Benchmarks exclusive Landscape Maps with large easy-to-read and page overlap, and a useful GPS grid. The categorized Recreation Guide makes planning your next adventure a breeze. The Recreation Maps have public land ownership shown as color tints, and most titles have hunting unit names and boundariesRecreational Maps: Benchmarks Recreation Maps were created for outdoor lovers who want the high quality recreation information in our atlases but with the convenience of a traditional folding map. Complete public lands detail and hunting unit boundaries are shown as well as categorized recreation listings. | File size: 59.Mb

Benchmark Maps (Firm) : California Road and Recreation Atlas (Benchmark Atlas) before purchasing it in

order to gauge whether or not it would be worth my time, and all praised California Road and Recreation Atlas (Benchmark Atlas):

8 of 8 people found the following review helpful. RVing California Necessity By KatGreat for Recreation areas. If you are RVing around CA, you'll need it!! Benchmark maps are almost a necessity for RV boondockers! They contain such a variety of information about public lands, unmarked backroads, and hidden hot pools. California has such a variety of scenery and natural resources and this book details them minutely. Get a Benchmark for each state you RV in!! 2 of 2 people found the following review helpful. This has been a pretty solid addition to my adventures By Eric LoPresti This has been a pretty solid addition to my adventures. There have been a bunch of times on BLM land where the book shows roads where they are gated and private. This seems especially bad in rangeland in the coast range (mostly south of the bay). Besides that, its solid. 35 of 36 people found the following review helpful. new edition is too cluttered By John E. Mosley I've enjoyed the Benchmark atlases for years because they are (were) so easy to read. I much preferred them to the Delorme atlases for this reason -- they included enough information but not so much that it was cluttered. My old California atlas was wearing out so I upgraded -- but don't care for the new one. It's so much harder to read that we kept the old and will use it most of the time, referring to the new one on occasion. Benchmark has now included so much detail -- every tiny stream, for example -- that it's hard to read. Surely they have professionals on staff who know when enough is enough and when it's too much. Still, it's a good atlas, but I'd look at the alternatives before buying it and I won't automatically upgrade any of my other older atlases without checking out the new version and the competition.

California deserves an atlas that matches its varied culture and scenery and Benchmark's California Road Recreation Atlas is it. Nearly 225,000 copies have been sold since its introduction in 1998...an impressive acceptance that has made this atlas one of the most successful California map products of the last decade. Now, the new 8th edition has improvements and refinements that will insure its continued success. Benchmark's Landscape Maps™ now show ground-cover detail at a very high-resolution. It's easy to see, at-a-glance, whether an area is forested, cultivated, marshland, desert, or scrubland. This feature is ideal for the person who wants to know the most about an area being visited beforehand. Along with the all-new Landscape Maps, Benchmark has extensively revised the 14-page Metro Map section. Of course, the atlas still has features people love; a complete Recreation Guide, page-to-page overlap and legendary accuracy, features that assure this atlas will continue winning accolades for many years to come.

For land lovers, a new series of Benchmark atlases highlights recreation and topographical map features. The heart of these maps is the landscape map pages, which show landforms with impressive clarity. Roads and rivers are shown as they fit into the land, not as schematic diagrams. The maps seem to be designed specifically for the hunter, fisherman, and recreational outdoorsman." ~Lew Carpenter, Editor, Western Outdoors Magazine --Lew Carpenter, Editor, Western Outdoors Magazine About the Author Benchmark Maps publish a line of state road atlases that include landscape and physical features of the topography, along with road and recreation information. Benchmark state atlases are created for people who need an authoritative reference to the natural beauty, culture, and history of the American West. Nowhere else will the camper, boater, traveler, or armchair explorer find a more comprehensive guide and travel companion. At the heart of the atlases are the richly detailed Landscape Maps, compiled by skilled cartographers using the latest digital technologies. They are simply the clearest, the most beautiful, and the most up to date of any now published.
