Laurel Cook : California Spas Urban Retreats before purchasing it in order to gage whether or not it would be worth my time, and all praised California Spas Urban Retreats:

1 of 1 people found the following review helpful. Excellent book on California SpasBy Jennifer LineThis book was very helpful in deciding which spas to to visit. Great description of services offered, lodging, and an approximate price range. This book was great, and I am local to an area where most of the spas are from. Her reviews of the spas themselves was great. I highly recommend this book to anyone wanting to go visit some wonderful and relaxful spas.

Great places to relax in California
