From Camino Guides : Camino Portugus Maps - Mapas- Karten: Lisboa - Porto - Santiago (Camino Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Camino Portugus Maps - Mapas- Karten: Lisboa - Porto - Santiago (Camino Guides):

5 of 5 people found the following review helpful. If you buy the Brierley Guide to the Camino Porugues, you don't need this one, too. By L. Hendrickson No problems with the book, it has the maps and accompanying text in several languages. I bought both this and the Guidebook, but if you have the Guidebook, you don't need this one, too, as the maps are identical. I cut the Guidebook in half, leaving home the Lisbon to Porto section to save weight. Otherwise, the map book is slightly lighter in weight than the Guide written only in English. 0 of 0 people found the following review helpful. Disappointed By Gilbert Franklin Unfortunately I was disappointed with this book, I didn't realize it was a condensed version or I would not have bought it. I bought and used John Brierley's book on the Camino de Santiago and used it as my bible whilst walking the Camino, I was expecting the same with this book and it's not. I shall probably return the book. 0 of 0 people found the following review helpful. Five Stars By Aurorajohn Brierley es the best advisor for The Camino. Don't do the Camino without his books.

"Even if you don't think you will ever make this pilgrimage, you will enjoy the books because they help you feel like you are right there, making the journey along with the many travelers on the paths." New Spirit Journal
