Narae Kim : Dot to Dot NYC before purchasing it in order to gage whether or not it would be worth my time, and all praised Dot to Dot NYC:

0 of 0 people found the following review helpful. Love itBy gorditerPurchased this book for my 10 year old daughter. She loves it. Each page takes a long time and keeps her occupied and off her phone so I love it as well. Two things to note. I have perfect vision and the numbered dots were still difficult to see. I could see them but it hurt my eyes. Anyone with less than perfect vision will need a magnifying glass! Also, I would suggest the publisher include the names of all the buildings (maybe on a single page at the back of the book. while some are such iconic building that my daughter recognizes them, others are not).

Follow the numbers, grab your crayons and markers, and discover and decorate the capital of the world... Hidden just beyond sight in this adventurous dot to dot coloring book lie epic New York City landmarks to be revealed and completed by you, the intrepid artist. Intricate and detailed, the final results are delicate and beautiful while stunning in their complexity. Within these pages you will find yourself visiting the rides of Coney Island, the towers of the famous NYC skyline, the commute along the Staten Island Ferry, the wilderness of the Bronx Zoo, the groove of the Apollo Theater, and the art deco elegance of the Chrysler Building, among so much more! Not only fun, dot to dot art has been proven to increase short-term cognitive acuity, hand-eye coordination, concentration skills, as well as mood. Not just for a rainy day, enjoy this celebration of the Big Apple as a keepsake of your visit, or spend your hours connecting the dots and inch yourself closer to your Broadway dream.

About the Author Born in Busan, South Korea in 1987, artist and model Narae Kimwon third place in the 2010 Elite Model Look Korea contest and has modeled professionally ever since. Narae relocated to New York City in 2012 where she began drawing images of the city's iconic skyline and architecture.
