At one of our camps, the camp managers noticed it and thought they should get some to stock in their gift shop as folks often ask them what they're seeing. I really liked that it's small and easy to carry while on safari and that it doesn't take up much room in our weight/size limited carry-on luggage on our domestic flights. It covered most of the non-bird wildlife we saw. 3 of 3 people found the following review helpful. Great quick reference for travel By Marcia S. Patrick Used this as a quick reference on a safari in Tanzania and Kenya. It is easy to carry and laminated so it doesn't tear or get dirty (dusty). Really handy! Worth every penny! We also carried the East Africa Birds reference. 1 of 1 people found the following review helpful. Some Pictures are too small By honeygo It covers the most of safari animals in the East Africa, some of the pictures are too small to see clearly.
