I actually like the Eastern Birds card a little better than the ... By History loving Granny My 3rd card of the same area. Previous review explains I gifted a friend with my first one, bought myself another, then lost it. I actually like the Eastern Birds card a little better than the Pennsylvania Birds as it seems to include birds I see in PA that are not on the PA card! Both are excellent for quick reference. Price is right, too! 0 of 0 people found the following review helpful. A great, sturdy bird reference for toddlers and everyone else! By ArchiMama Bought one in the store, and I'm here to order two more for gifts! This is perfect to keep by the window, where we can see our bird feeder. With two toddlers, our bird book was getting a little mangled. This is a very sturdy, laminated (?) brochure, with large, great, colored pictures of all the birds we need. No more having to scour the pages of our bird book! Now we can just open this baby up, and easily identify the birds we see.
