The print is tiny, tiny, tiny and the map is split down the center horizontally w/a 1/4" clear strip right in the middle of the state! Very hard to follow roads and highways w/this strip in the middle of the map! The three horizontal folds are also clear stripped, but they are only about 1/16" or less so the continuity there is ok. Very disappointed though. I have bought laminated maps before and have never had this issue. Should've sent it back since I can't even read it w/my reading glasses on, but I'll keep it since it was inexpensive. Definitely won't buy another one, though.1 of 1 people found the following review helpful. Great for the what-if scenarioBy Ricky HillThis has come in rather handy already and I've only owned it for a few weeks. I bought one to stash in my glovebox and I found myself in the middle of nowhere last week without cell service. I was able to use my car's compass and the map to figure out where I needed to go. The map folds out and lays flat. The paper between the laminate is cut to match the folds to make this possible. There isn't a whole lot of detail but for general use, it's great.0 of 0 people found the following review helpful. Five StarsBy Customernone
