Rand McNally : Easy To Fold: North Dakota, South Dakota (Rand McNally Easyfinder) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Easy To Fold: North Dakota, South Dakota (Rand McNally Easyfinder):

0 of 0 people found the following review helpful. Good handy, detailed and scaled map. By Ski boy One review wrote that there was no scale info. Well there is, it's located in the info section under South Dakota on one side and North Dakota on the other (see photo). It also has blow ups of Bismark, Grand Forks and Fargo on the North Dakota side which also shows west Minnesota and up into the Canadian Winnipeg area. The South Dakota city blow ups are the Black Hills region, Rapid City, Sioux Falls and Pierre. The south side also shows western Minnesota and Iowa along with northern Nebraska. Its nice to be able to write on this map for routes etc. The map legend also indicates the following: free limited-access highway, Toll limited-access highway, other multi-lane highway, other through highway, other road, unpaved road, scenic route, Lewis Clark Trail highway, time zone, interstate, U.S. Highway, state highway, county highway and the mileage scale. It also shows areas in color code that are National Grasslands, National forest, or city park, National parks, State Parks, State facilities, or other National Park service facilities and much more. 0 of 0 people found the following review helpful. Map size looks pretty small - No map scale information! By Jens Gottlber Only three stars because I expected a way more detailed map. I.e. you have the whole State South Dakota on two pages size A4. South Dakota is more than half the size of whole Germany. In Germany you get a road Atlas of 100 pages and more. I did not expect that at all because the population is much smaller in SD but I expected the map a little bit more detailed. There should be also a scale at the map or at least it should be mentioned in the description of the map. The scale of Rand McNally South Dakota map is 1:1,7 million or 1cm = 17km (1 inch = 26 miles) compared to a detailed german map 1:0,2 million or 1cm = 2km. With such an information you know much better what you will get in the end. Rand McNally maps getting always very good ratings. That's why I hope the map size is good enough for the big size of the state?! The quality of the map looks really good to me! 2 of 2 people found the following review helpful. Great, sturdy By Allegra Harness Great, sturdy, easy to read.... my only issue is why lump the two states? Maybe some city maps on the other side for each different state. Given the size of these states, I would find it unlikely that people would travel both and require the map for both in one document. Just because they have the same "last name" doesn't mean they should be sold together.

The durable and convenient North Dakota and South Dakota EasyToFold state map will take all the wear and tear your journey can dish out. The heavy-duty laminated design allows you to mark your route, make notes, then wipe the surface clean for further use. This is a must-have for navigation whether you're a state resident or just passing through. Easy to fold means no fumbling Heavy-duty lamination allows you to write on, wipe off Durable and tear resistant Folds to display individual map sections Full-color maps with enhanced cartography Clearly indicated highways, county boundaries, points of interest, and more Quick-reference legend and city index Product Details Dimensions: 9" x 4.25" folded; 18" x 17" unfolded.
