Elizabeth Gilbert : Eat, Pray, Love: One Womans Search for Everything Across Italy, India and Indonesia Eat, Pray, Lov before purchasing it in order to gage whether or not it would be worth my time, and all praised Eat, Pray, Love: One Womans Search for Everything Across Italy, India and Indonesia Eat, Pray, Lov:

1 of 1 people found the following review helpful. Eat. Pray. Love. Enjoyed!By CustomerFirstly, I liked this book as it was split into three parts. This made it an easier read for me as I am not always keen on reading longer novels compared to short stories and novellas. An aspect of the book which I found interesting was that for each part of the book, the writer takes you on this story which starts of rather 2-dimensional, but then quickly develops it into a vivid multi-dimensional journey of Liz's experiences. This along with the style of writing helped the reader grasp that it's more than a story and it's a series of real events that occurred. I rated this book 4/5 because it is insightful and thought provoking.1 of 1 people found the following review helpful. Liked the book-Loved the movie a little betterBy Winters FamilyEat Pray Love is one of my favorite movies, and I wanted to read the book to compare. I do very much love the book, and you do get more detail into the story reading the book. There are some differences between movie and book, and if you have watched the movie, you will notice them. Still, a great book.0 of 0 people found the following review helpful. I loved the start when the author was talking about her ...By madkittFor me this book captured my attention at the beginning and held huge promise. I loved the start when the author was talking about her experiences prior to

leaving on her trip and what drove her to go etc. However I did find it dragged sometimes especially in the Indian and Indonesia sections and I found myself skipping over some parts because the historical references really didn't interest me. I am however inspired to see the movie now having read the book.
