So many of the recipes that are such a raving success now are still made from old recipes from the old dirt roads of Santa Fe. The recipes that are new don't taste the same way our native food is made. People that don't know any better go for it because of all the hyp on it. Native Santa Feans and their decendants know the difference of today's foods and the originals. Please don't make such a comment that until these chefs came along that no one knew how to cook...we are the ones that taught the likes of them.

Eating Out in Sante FeBy A CustomerFirst, I really enjoyed reading this book, with all of the history she included about each restaurant, cafe, market or bakery. It was published in 1997 and most of the establishments are still there. We just returned from visting in Sante Fe and used the book everytime we were going out to eat. It was fun to read her explanation before entering the door. She was correct with her rates on every one we frequented.I recommend reading this before your vist and using it while you are there.
