National Geographic Maps - Trails Illustrated : El Yunque National Forest (National Geographic Trails Illustrated Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised El Yunque National Forest (National Geographic Trails Illustrated Map):

3 of 3 people found the following review helpful. Not enough info to justify it...By CustomerThe map really doesn't have much info on it. El Yunque is a lot like the finger lakes state parks in NY. Mostly paved paths to tourist attractions. If you are planning to go to the more remote areas, perhaps this has some value, but even on the main road (191)there were plenty of waterfalls missing from the map. All in all its a good map to get your bearings, but an 8.5x11 piece of paper for \$2.95 would have been just as good. My recommendation, take a photo at the trail head kiosk and save the \$10.0 of 0 people found the following review helpful. ... most travelers have limited time and it would be nice to pre-plan a routeBy (Dr.) Ashley NicholasSome written information on the places of interest including descriptions could be includes as an attached flier to help travelers pick out what areas to visit most travelers have limited time and it would be nice to pre-plan a route. Map nice and detailed though.0 of 0 people found the following review helpful. Another high quality map by National Geographic. The trails ...By Greg RogersAnother high quality map by National Geographic. The trails are all clearly marked as are the highlights and stops along route 191. We used this map a few times to find parking areas and decide what trails were of interest to us.

Waterproof Tear-Resistant Topographic MapLet National Geographic's Trails Illustrated map of El Yunque National Forest guide you as you explore this tropical rain forest on the eastern side of Puerto Rico. Created in cooperation with the U.S. Forest Service and others, this expertly researched bilingual map (English and Spanish) is a comprehensive guide to the area for all outdoor enthusiasts, novice and experienced alike. Not only is there an abundance of recreation information, but also background information about the forest, its history, plant and animal life, climate, points of interest, safety tips and accommodations. A trail guide will help you select a suitable area to explore, with trail descriptions, length and hiking time.The map covers the entire forest, including the Bao de Oro Natural Area, enhanced by an inset map showing the El Yunque Recreation Area in greater detail. Clearly pinpointed trailheads and mapped trails will lead you on your adventure. Other marked facilities and recreation features include picnic areas, drinking water stations, restrooms, parking areas, scenic overlooks and lookout towers. Your navigation will be aided by the map's contour lines, elevations, water features, selected waypoints and clear boundaries between public and private land, as well as a complete road network of the area.
