If you are looking for a book that details the rides, which lands they are in, what shops are where (and what they typically contain), and basic restaurant info- this book is for you. If you are expecting Frommer's, Fodors, Lonely Planet, etc level of depth you will be disappointed. I wish I could return this book as it really didn't give me more info than what I could research on my own on the internet. A shame too, there's not much English information compiled in one place about HKDL and this book really had the potential to be more than it is. A basic guide, but I walked away feeling like it had really only scratched the surface. 0 of 0 people found the following review helpful. easy read By
