operate a private investigation, private security, and training firm based out of Chino Hills, California. For a while, I've been searching for great reading material so I can learn to keep my clients safer. When I first purchased this book, I was expecting another security checklist type of a book. Was I wrong! The authors, David S. Katz and Ilan Caspi are veteran protection agents drawing from a diverse law enforcement and intelligence background. These are the people you can trust for 360 degree protection. If I had to, I would hire these guys to protect my children. Read their book and you'll find out why! And the authors don't offer advice "just because." Many raw examples are given so the reader doesn't wonder "why?" Although the book is entitled "Executive's Guide to Personal Security," the information is just as relevant to the average person wanting to be safer from the predators lurking in the shadows. Law enforcement, intelligence agents, protection agents, educators, and overseas contractors, will find this book SAVES LIVES. Let's not forget, if you or a loved one plans on traveling ANYWHERE, you need to read this book. All of their advice is practical and is based on years of experience dealing with the worst people society has to offer. You'll learn so much more about things we never consider when traveling: terrorism, passports, medical emergencies, hospitals, taxi drivers, body armor, vehicles, weapons, etc...Shaun SundahlChino Hills, California0 of 0 people found the following review helpful.
