1 of 1 people found the following review helpful. Great book to buy!By Emma HernandezI absolutely love, love, love this book. This book is perfect for finding hidden treasures. They may not be of pirates treasures of gold and diamonds, but just as grand. If you and your family enjoy searching for pottery pieces, indian arrow heads, old antique bottles, hidden caves this book is for you. Originally written in 1986, directions, roads, street names have been changed a lot. It helps if you are familiar with the area already, though. The maps are kind of generic, it looks like they were written in a hurry on the back of a napkin, but part of the fun is the hunt.Dispite all this this, it's still a great read. Over all I highly recommend this book.0 of 0 people found the following review helpful. More is better.By Bertil RomanusNot always, but this new adds to the excitement of exploring odd places in AZ.
