Bruce C. Scofield, Stella Green, H. Neil Zimmerman : Explorer's Guide 50 Hikes in New Jersey: Walks, Hikes, and Backpacking Trips from the Kittatinnies to Cape May (Third Edition) (Explorer's 50 Hikes) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Explorer's Guide 50 Hikes in

New Jersey: Walks, Hikes, and Backpacking Trips from the Kittatinnies to Cape May (Third Edition) (Explorer's 50 Hikes):

1 of 1 people found the following review helpful. It's a startBy Jim HI'm happy to have a book on where to hike in New Jersey (not my home state), but I really believe there are many more places to go. Although I haven't tried them out yet, I feel as if the directions on how to get places could be a bit better. In the past I've bought books by Richard and Sue Freeman for upstate New York, and they seem to be a bit more to my liking. But overall, this book really is not bad. I'm really glad I have it.5 of 5 people found the following review helpful. Like to hike in NJ? Then this is the book to getBy Jeffrey JotzThe author divides his book into different regions on NJ and then describes his favorite hikes in each region. Unlike other NJ hiking books, this book thankfully includes a map of each hike, although they are in black white.The vast majority of these hikes are day-hikes, although a few overnight trips are included as well. All lengths, features and skill levels of hikes can be found in this book.0 of 0 people found the following review helpful. Five StarsBy G. FieldhouseGreat reference guide

This completely updated treasury of trails takes you to the best wild places in the Garden State. New Jersey holds much for hikers to explore, and this completely updated edition leads the way along the Appalachian Ridge; over the ragged Wyanokies; through the hauntingly remote pine barrens; and into the marshes, dunes, and sifting sands of the seacoast. With excursions from 1.5 to 28 miles in length, accompanied by driving directions, trailhead information, difficulty ratings, and detailed maps, this roster of hikes will suit everyone from families out for a nature walk to adventurous backpackers up for challenge. Known more for its urban areas than its green spaces, the Garden State is actually a crossroads for major interstate trails including the Maine-to-Georgia Appalachian Trail, the 150-mile Highlands Trail, and the 60-mile Delaware and Raritan Canal State Park Trail. Local trail networks crisscross the state and the authors offer their choice picks, sharing the geology, lore, and natural and human history along the way. 51 black-and-white photographs, 51 maps

About the AuthorBruce Scofield, a New Jersey native, is a freelance writer, photographer, and astrological consultant.
