music trip. It has a lot of interesting facts and was entertaining to read. I do much of my travel research online any more, but when I go on vacation I want to disconnect myself from computers.. so this was great for that.0 of 0 people found the following review helpful. Love this book and will write a new review after ...By CustomerVery through. I am taking a road trip with my Aunt from Memphis to NOLA and I cannot wait to stop at all the places I have marked. Love this book and will write a new review after I've put it to use. So far though, it is one of the better travel books I have come across.2 of 2 people found the following review helpful. MS Blues Trail BookBy Hunter NewmanThe book was shipped quickly and the description was accurate. The book was just what I was looking for to take with me on a road trip through the Delta. It is also great to use for researching prior to a trip through the birthplace of the blues, the Mississippi Delta.
