The only good thing that came from this book was a restaurant in Wetmore called Camel Riders. The restaurant was listed in the book, but gave no directions on how to get there. It was very hard to find, thank God I looked on a map and used another website. Some of the restaurants recommended were very bad and also had poor ratings on 2 other travel websites. I liked the color pictures inside the book but how the author actually got them because it seemed like she had never been to the UP. I found the Moon handbook easier to follow AND more valuable.0 of 0 people found the following review helpful. not usefullBy Mark Ritzingerpoorly organized. difficult to use. did not find it very helpfull on our vacation to the u.p.of michigan. did not keep it for our return trip.0 of 0 people found the following review helpful.
