Ruth Kirk : Exploring Death Valley before purchasing it in order to gage whether or not it would be worth my time, and all praised Exploring Death Valley:

0 of 0 people found the following review helpful. THE BOOK for Death Valley travel.By RonThere was a time when I made several trips to DV. Things I learned from experience were, a 4WD vehicle is best. A portable tire inflator is

next so you can lower your tire pressure when stuck and have a chance to drive your self out then reinflate for the hard roads. The other things and places I learned in this book. I used a couple of other guide books but always came back to this well written, descriptive and informative book noting places I didn't find in others. DV is a most fascinating place and it is best to choose a time of good weather. My trips were during Easter vacation and we even had snow down to Stove Pipe Wells one year. Oh and in addition to 4WD a comfortable to use shove is a good idea. I had to use it when my 4WD slid sideways in the snow up in the Panamints and I was stuck. Definitely the best road map you can find, maybe from AAA auto club and a lot of extra water are musts. 3 of 3 people found the following review helpful. slim book packed with info By brian@brianparkin.com This may be a slender volume written a long time ago but the descriptions and information are still good despite that. The writing is crisp and the directions short so a good map is needed for those who wish for adventure. Sections for trips by car, trips by jeep (most 4wd rigs with good clearance), and hikes on foot cater to most visitors' needs. Some road closures have occurred since publication so check with rangers and obey all road closed signs.

Book by Kirk, Ruth

From the Back Cover This comprehensive guide to the wonders of death valley National Monument has been completely revised and brought up to date. It is illustrated with over fifty photographs, many of them new. The book gives details on where to go by car, by jeep, and on foot, what times of day are best, possible side trips, and what to watch for.
