Christopher Moriarty : Exploring Dublin: Wildlife, Parks Waterways before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exploring Dublin: Wildlife, Parks Waterways:

Dublin's inner city natural history is described in this book. As well as dealing with the flora and fauna, the author gives background information on the construction of the canals and bridges, the growth of St Stephen's Green, the

history of Trinity College and development of College Park.

About the Author Moriarty is a nature and fishing expert.
