Phil Arnot, Elvira Monroe : Exploring Point Reyes: A Guide to Point Reyes National Seashore before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exploring Point Reyes: A Guide to Point Reyes National Seashore:

8 of 8 people found the following review helpful. Guide to Point Reyes for Avid HikersBy Matthew M. YauCalifornia and Oregon coasts are homes to much hidden beauties and treasures. The Point Reyes National Seashore is just one of the hidden pearls. "Exploring Point Reyes" is by far the most updated, complete, and enthusiastic guide to the seclusive peninsula about 25 miles northwest of San Francisco. Many Point Reyes guide books I found at the bookstore are outdated though they contribute an abundance of information."Exploring Point Reyes" refreshes the minds of those who dream of Point Reyes. The guide come with photos of Drakse Estero, Tomales Bay, the Point Reyes Lighthouse standing 330 steps down the valley on the tip of the peninsula, and more. The impact of Point Reyes is most dramatic at the meeting of land and sea. The guide has captured such beauty with the photos."Exploring Point Reyes" also provides information and cautionary advice about beaches within the national seashore. The book gives to direction to good protected beach for wading, picnicking, or just lying in the sun. The coverage on the Point Reyes Lighthouse is excellent. One of the greatest location for whale-watching is the lighthouse observation platform from December to April."Exploring Point Reyes" also satisfies the desires of adventurous hikers with info on less-known hiking trails. Trail maps are abundant in the book. The coverage on trails is divided into three types of terrain that distinguishes the trail systems of Point Reyes. Whether you're planning a camping trip, a hike-a-thon, or just a one-day photography session at Point Reyes, this book will allow you to see and experience the beauty of the Point Reyes peninsula. Avid hikers should not miss the book.3 of 3 people found the following review helpful. Enthusiasm shines

from every page!By John H.Highly recommended! Don't miss this one!Includes graded hikes with full route descriptions.Information on flora, fauna, and wildlife.Detailed trail maps and photos.Recommendations for equipment, clothing, safety, camping, horseback riding, canoeing, bicycling.Special programs and guided WALKS.Be sure to have this one.
