it would be worth my time, and all praised Eyewitness Travel City Map to Los Angeles:

A map of los angeles that only shows one freeway?By andrew searsI was shocked when I opened this map of Los Angeles, and finally realized the value of browsing bricks and mortar bookstores before buying online. This map covers such a small percentage of LA that on the full scale map of this city of freeways there is only one freeway showing. It has no Santa Monica or ocean. It omits USC and LA City College, and cuts halfway through UCLA. It has no continuity, showing parts of Beverly Hills, West Hollywood and Hollywood, but not how they connect to Downtown (only part of which is included in a detail), ignoring the three miles in between. It skips entirely the happening neighborhoods of Silverlake and Los Feliz. If tourists were to rely on this map to get between two points they would probably fall off the map before reaching their destination.

The team that brought you the best-selling, groundbreaking Dorling Kindersley Travel Guides and the innovative Dorling Kindersley Travel Planners introduces a new series-Dorling Kindersley City Maps. Designed to complement the guides and planners, each sturdy, weatherproof, but lightweight map features a detailed street grid of a major city keyed to a user-friendly Street Finder index. Other travel maps just point the way: DK takes you there.
