**John Pescatore : Family Bicycling: In the Washington-Baltimore Area** before purchasing it in order to gage whether or not it would be worth my time, and all praised Family Bicycling: In the Washington-Baltimore Area:

Pescatore presents 35 level, short rides that the whole family can enjoy alongside easy-to-read maps, information on attractions like playgrounds and petting zoos, and tips on safety and equipment. These routes are also recommended for in-line skaters, cross-country skiers, and others who appreciate flat courses.
