Well worth the money and makes a great gift! 7 of 7 people found the following review helpful. Lots of Fun Ideas! By apoem The ideas in this book are easy to do, not very expensive and for the most part, don't require anything exotic. There are suggestions for trips to take, things to do on trips, holidays, and more. There are ideas for making every day special, seasons, games for the whole family and more. If you can remember to look over this book at times, you will find a wealth of ideas for just about anytime (hospital stays, new baby, hot days, rainy days etc.) Our family will probably not even come close to doing half of the things in this book. However, everything we have done has been fun. We made the sugar eggs for some of the kids in the playgroup and they were a big hit. This book is sure to help you enjoy the time you have with your children. It has helped our family to explore new things and try new ideas. Enjoy. 1 of 1 people found the following review helpful. Great Book By Brenda Harley I am a fan of all of Joni Hilton's work and this book is no exception. It has fun ideas to do with your family that don't cost much. A lot of the activities you can do with the things in your own home. I really

like it but it doesn't take the place of Five minute miracles which still tops my list of her books and is no longer in print.
