Great BookBy A CustomerYou really can't make it all over Indonesia to go diving without a lot of time and money so the book covers a lot of territory. They do have good diving stories in general, beautiful color photos and quality maps. I intend to buy the Asia's Top Dive Sites because this book is so good.0 of 0 people found the following review helpful. One of the best diving guides everBy A CustomerThis is even worth the read if you are not going to Indonesia to dive. If you ARE going, it is essential. The photos are unsurpassed and the photo reproduction quality is superb.
