**Barbara McMartin : Fifty Hikes in the Adirondacks: Short Walks, Day Trips, and Backpacks Throughout the Park** before purchasing it in order to gage whether or not it would be worth my time, and all praised Fifty Hikes in the Adirondacks: Short Walks, Day Trips, and Backpacks Throughout the Park:

2 of 2 people found the following review helpful. Fifty Hikes in the AdirondacksBy cortezhillWhether directing you along abandoned logging roads to vanished settlements or describing the geologic events that shaped the mountains, Barbara McMartin is a stimulating guide. Her keen observations on the wealth of natural and human history along these trails are as fascinating as they are informative.This hiking classic, which presents 360 miles of the Adirondacks' best trails, has been completely revised by McMartin. Two entirely new hikes are included, and the others have been rehiked and thoroughly updated. All maps have been redone for greater clarity and up-to-date accuracy, and many new photographs have been included.Primarily concentrating on day trips, this guide is for hikers of all ages and degrees of experience. It includes short walks to introduce novices and vacationers to the pleasures of the Adirondacks and several strenuous extended hikes into the wilderness to challenge the most experienced backpacker.--- from book's back cover.

Gives the round trip distance in miles, hiking time, vertical rise, and a description of 50 marked trails.
