This is the definitive guide to the area. Any season. Great directions to and description of lots of birding hot spots.18 of 18 people found the following review helpful. Excellent bird-finding guide for DC, Maryland and Virginia !By Franz Hesperheide (franzh@cpcug.org)Claudia Wild's book is an indispensable guide to all of the best birding sites within a 200 mile radius of Washington, DC. It is a "must buy" for birders of all skill levels if you visit or live in DC, Maryland, or Virginia. She also covers Delaware, Cape May, NJ, and parts of Pennsylvania, West Virginia, and North Carolina. Her directions are easy to follow and her writing style will make you want to read about favorite birding areas again and again. Most important, this book will make it easy to find target birding species (in the appropriate season). This book is a solid 5 stars !!!

In the second edition of Finding Birds in the National Capital Area, Claudia Wilds updates her classic guide with new maps, directions, and descriptions, providing information on birding from Delaware to North Carolina accessible to the novice and detailed enough for the experienced birder.
