Some of the best surfcasting in the world happens not on a beach, but along the banks of the uniquely positioned Cape Cod Canal. Seven miles long and 480 feet wide, the Cape Cod Canal, connecting Buzzards Bay to the south and west and Cape Cod Bay to the north and east, offers the striped bass fisherman unparalleled opportunities--a fishery unlike any to be found, on any coast. The paths to successful fishing in this unique environment are fully explained in FISHING THE CAPE COD CANAL. One key to fishing the Canal is knowing the tides and how they will affect the fishery. Another is understanding the migration patterns of the striped bass. A third is perceiving how adaptations in traditional fishing tacklerods, reels, and line must be made. Yet another is developing awareness of which lures catch fish, and how those lures are best manipulated. All these issues, and more, are fully explored in this exceptional book. Welcome to the Ditch, and to the storied locations on its banks: The Power Plant, Pip's Rip, The Dolphin's, The Cribbin, The Herring Run, Mass Maritime, Bell Road, The Stone Church, Murderer's Row and more. FISHING THE CAPE COD CANAL will get any surfcaster, from seasoned pro to brand-new angler, up and running and catching fish.

(Ryan Collins, Founder, My Fishing Cape Cod) Although I was a little skeptical of a book about the Cape Cod Canal at first, after reading it my suspicions were laid to rest. This book is a useful tool for the newcomer or anyone looking to sharpen their skills at the Big Ditch. (Roy Leyva, Legendary New England angler and multiple Massachusetts Angler of the Year title recipient) This is a clear, concise, no-nonsense, well-written book. I suspect that after reading this book, you won't head for the Cape to do some striper fishing without taking it along. Published by Burford Books, It is a 120-page paperback book which won't break the bank at \$14.95. What a great gift for Father's Day . . .
