Rose Houk : The Guide to the National Parks of the Southwest before purchasing it in order to gage whether or not it would be worth my time, and all praised The Guide to the National Parks of the Southwest:

1 of 1 people found the following review helpful. Lots of beautiful pictures and decent overview of the park's historyBy snake eyesLots of beautiful pictures and decent overview of the park's history. Hard to call this a guide though as there is minimal information on the campgrounds and hiking trails. The maps have no detail are really worthless Also the 9"x12" size makes it more like a coffee table book rather than paperback size. The book only has 80 pages to cover 52 parks, so after subtracting the 170 photographs and another 52 maps it's pretty thin in actual content. Buy it for the pictures and to get inspired but look elsewhere for better details.0 of 0 people found the following review helpful. Great guideBy candelierA great book to plan our next RV trips. The pictures and descriptions are perfect. They give a very good idea of the sites and make you realize how beautiful the South West

is.0 of 0 people found the following review helpful. HelpfulBy MariodinkyWe have now bought four copies of this book. It has all the cool national parks of the southwest. Everyone looks through the book and chooses which area they want to visit. It is so well received that I will start inventorying them since they are now out of print.

The southwestern United States, with its astounding collection of national parks and monuments, offers travel unlike any other. Here, canyons record geologic time in a tableau of color. Frontier history unfolds in hundred-year old adobe walls. Impressive archaeological sites connect us to the ancient people who lived here hundreds of years ago. Vast backcountries shelter flora and fauna found nowhere else on Earth.

About the AuthorAuthor Rose Houk specializes in natural history, history, archeology, and travel writing. She first came to the Southwest to work at Grand Canyon National Park in the late 1970s. She has written numerous publications for national parks and monuments, has been an editor at the National Wildlife Federation and the University of Arizona Press, and is a frequent contributor to Arizona Highways magazine. She is also the recipient of the Southwest Parks and Monuments Special Achievement Award. Rose lives in Flagstaff, Arizona.
