**Rob Schultheis : The Hidden West: Journey in the American Outback (Wilder Places)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Hidden West: Journey in the American Outback (Wilder Places):

2 of 2 people found the following review helpful. a gem, an overlooked classic By peterson foster Combine a little Kerouac, Dee Brown, S.C. Gwynne, Hampton Sides, Jim Harrison, John McPhee... you get the idea... superlatives apply in all

regards to this fine book. I have given it as a gift to six or seven friends. They all love it. I re-read it annually and have done so for about twenty years. Sentimental, historical, autobiographical, nostalgic, prophetic...0 of 0 people found the following review helpful. The book is so interesting that it's almost painful to see it endBy TONY CAMPBELLThe book is so interesting that it's almost painful to see it end. It is one of those books you'll keep to re-read each year and still take away something new. Found a reference to it in another book and can't figure out how I missed it for so long. Maybe it was waiting for me to get to a place where I could appreciate it to the fullest.0 of 0 people found the following review helpful. a jewel of a book and an experience to read over and overBy M. ChildsA truly moving and game changing book for me. It opened up a way of life and exploring in our western landscapes that has stayed with me for decades. It captures the joy and awe and moment in time when a new way of experiencing life comes through a new landscape--or at least new eyes.

A memorable account of one man's journey through terra incognita - secret places that still exist in the American West.

"A celebration of that vast expanse of remaining American frontier."--The New York Times Book
