It will be of interest to scholars, tourists ... and to anyone interested in getting to know a new "layer" of the Eternal City. Lansford doesn't just translate Rome's Latin inscriptions; he puts them in historical context, bringing them to life. The organization of the guide into walking tours will turn even the most well-known neighborhood of Rome into an off-the-beaten track discovery.3 of 3 people found the following review helpful. A must have for ANY fan of Rome!!By Albert SlapMy stepson was bragging to me about a Roman History class what a

great and extremely knowledgeable Classics teacher he had at the University of Colorado, so I curiously asked to see the syllabus to the class. Immediately I read name Tyler Lansford on the top of the page and realized my stepson was taking a class from our "personal" guide, my stepson and I had just traveled to Rome the summer before and used Lansford well crafted book as a virtual tour guide of Rome and its timeless inscriptions by foot!! A must have for all ages of those who wish to understand the ancient city of Rome, and to those who wish to see hidden marvels in the city of Rome that they would otherwise be unaware of. 15 of 16 people found the following review helpful.

Outstanding Blend of Scholarship and Travel Writing By David Heitman This is quite an impressive tome with its unique blend of scholarly precision and highly accessible, travel-related material. The introduction to each major area of the city is a robust and engaging history, followed by the relevant Latin inscriptions and their English translations. Whether you literally follow in Lansford's footsteps, or take in the Roman inscriptions from the comfort of your own study, this is great history brought to life, well written, and thoroughly enjoyable. I think this is the kind of book you can pick up and open to any page and enjoy as much as reading cover-to-cover.

Rome's oldest known Latin inscription dates from the sixth century BC; the most recent major specimen was mounted in 2006a span of more than two and a half millennia. Remarkably, many of these inscriptions are still to be found in situ, on the walls, gates, temples, obelisks, bridges, fountains, and churches of the city. Classicist Tyler Lansford has collected some 400 of these inscriptions and arranged them with English translations into fifteen walking tours that trace the physical and historical contours of the city. Each itinerary is prefaced by an in-depth introduction that provides a survey of the history and topography of the relevant area of the city. The Latin texts appear on the left-hand page with English translations on the right. The original texts are equipped with full linguistic annotation, and the translations are supplemented with historical and cultural notes that explain who mounted them and why. This unique guide will prove a fascinating and illuminating companion for both sophisticated visitors to the Eternal City and armchair travelers seeking a novel perspective into Rome's rich history.

This book is wonderful. My head is full of information I didn't know about Rome, despite my many years there. Lansford's evocative depictions of monuments, cityscape, and memorable humans have inspired me anew with the fascination of Rome. (Mary T. Boatwright, Duke University) Latin is a less and less common attainment even among educated travellers, so Tyler Lansford has come to the rescue... If this book is not slipped into many a Rome-bound suitcase, there is no justice in the world. I can think of few more enjoyable companions on a prowl through the city. (Jane Stevenson Times Literary Supplement April 16, 2010) The Latin Inscriptions of Rome is a delight, one to which I shall turn and to which I shall send my students when in Rome, and which I recommend to everyone interested in gaining a wealth of detailed information about 'the epigraphic habit' and its importance to our understanding not just of ancient Rome, but of every era of the Eternal City's incredible history. (James C. Anderson Classical Outlook) Tyler Lansford... has put together the most original and stimulating guide to the Eternal City of the hundreds published in recent years. (Masolino D'Amico La Stampa) About the Author Tyler Lansford is an independent scholar and the cofounder of Seattle Language Academy.
